system lifecurves, acceptability regions and reliability 0−49428
system-optimised route guidance strategy development and potential 0−62449
TABARIS: an exact algorithm based on Tabu search for finding a maximum independent set in a graph 0−54788
tabu search 0−38011
tactical human team resource allocation scheduling, normative descriptive approach 0−55638
tankers, computer aided optimum structural design 0−73195
technological process online optimisation using regression models *(Polish)* 0−65653
temporal databases, framework for query optimisation 0−64886
testing of complex systems optimisation 0−60952
three-dimensional Ising model on M64/60 computer, optimisation of FORTRAN code 0−42756
titrations, instrumental data, information content 0−65678
topological testing , using graph theoretic optimisation methods 0−43248
transfer lines, large, total safety inventory optimisation 0−55509
transport aircraft lateral-axis autopilot design, explicit model-matching approach 0−62536
transportation problems for proving SPT optimality for single-sequencing problems 0−44316
transportation system entropy models prior probability determ. 0−50009
transputer network for ISO/OSI architectures , throughput optimization *(German)* 0−46620
transputer-based workstation accelerator for optimisation algorithms 0−48503
transshipment problem, minimum cost routing on stochastic networks 0−68177
TRANSYT, mixed car/streetcar operation traffic model 0−38791
TRANSYT, mixed traffic operation model, signal optimisation 0−38792
travelling salesman problem, dualization *(German)* 0−61478
travelling salesman problem, large, multi-stage Monte Carlo optimisation appl. 0−38701
travelling salesman problem, symmetric, 1-tree relaxation using dual ascent algorithm 0−38702
travelling salesman problem appl. of Hopfield-Tank neural net, high performance by normalisation and simulated annealing 0−44744
travelling salesman problem formulations classification 0−38703
trawlers, concept design system for interactive optimization 0−73189
tree-like graphs, efficient computations 0−49279
tridiagonal solvers for alternating direction methods on Boolean cube multiprocessors 0−51252
trie design heuristics framework 0−56714
trunk reservation, asymptotically optimal, for large trunk groups 0−49233
trust region step computing for penalty function 0−38016
tunnel construction using context-based connection algorithm *(French)* 0−60204
uncertain finite dimensional linear systems, stability radius optimisation using geometric approach 0−38942
uncertain linear systems, necessary and sufficient conditions of quadratic stability 0−50197
uncertain linear systems quadratic stability necessary/sufficient conditions 0−61798
UNIX System V Release 3.2 , printer subsystem 0−64831
unstable plants, polynomials optimisation of stochastic discrete-time control 0−61875
unstructured grid flow solves as benchmark calc. on SIMD computer 0−40879
urban water supply, decomposition-coordination optimisation algorithm for distribution *(Chinese)* 0−62031
use of simulation in semiconductor technology development 0−59753
vector optimisation, complete efficiency, and interdependencies between objective functions 0−38018
vector optimisation, positive proper efficient points 0−49419
vector optimisation problem in locally convex spaces, connectedness of weakly efficient points 0−44325
vector quantisers, combined, optimisation algorithms *(Slovak)* 0−69820
vector variational inequality and optimization over an efficient set 0−44341
vehicle Euclidean routeing problems with general route cost functions 0−61670
vehicle routing models implementation 0−61685
vehicle routing problem, transporting mentally handicapped adults to training centre 0−52966
vehicle schedule optimisation on fixed path with convex inconvenience costs 0−55540
vehicle-scheduling system for delivering school meals 0−71990
velocity field matrix in shape optimal design 0−66642
Vihdintie five-arm roundabout signal control models, Findland 0−55544
virtual memory systems, distributed shared , transaction synchronization 0−46993
visual evoked potentials, normal and abnormal, optimal extraction of parameters using ALOPEX process 0−72409
VLSI channel routing, neural computation using Hopfield neural network model 0−43239
vocal tract synthesis, articulatory-based system 0−38496
waveguide slot H-bridge geometry optimisation programs *(Russian)* 0−59747
weakly triangulated graphs, optimisation, erratum 0−54806
weighted median algorithms for L$_1$ approximation 0−51146
wheelchair assembly lines, balanced scheduling by computer 0−42477
wheelchair athletics force/energy optimisation model 0−50034

optimum control *see optimal control*

opto-couplers *see opto-isolators*

opto-isolators
common optically coupled 3D memory, memory cell design 0−63734
mini-flat package photocoupler for high-density surface mounting *(Japanese)* 0−63992
wide-band analogue signal transmission for channel with diode optron, distortion calcs. 0−38559

optoelectronic devices
see also integrated optoelectronics; opto-isolators; photoelectric devices
dynamic optoelectronic read/write memory 0−51845
image evaluation for object measurement *(German)* 0−62645
laser and optical fibre sensors, for industrial robots 0−68789
MM-wave oscillators optical synchronization for distrib. architecture 0−55768

optoelectronic devices continued
neural networks, optoelectronic implementation in single photorefractive crystal, spatial multiplexing of interconnect gratings 0−51789
p-i-n photodiode based optically controlled *K*-band oscillator 0−68520
shape checking by projection moire process *(German)* 0−63677
simple optoelectronic architecture for associative memory applicable to 2-D pattern comparison 0−51844
XNOR optoelectronic logic gates, 2D array, bipolar binary optical processing 0−69596

optoelectronic integrated circuits *see integrated optoelectronics*

optothermal spectroscopy *see photothermal spectroscopy*

optrons *see opto-isolators*

OR *see operations research*

OR gates *see logic gates*

Oracle *see teletext*

organs (artificial body) *see artificial organs*

original equipment manufacture *see DP industry*

orotrons *see free electron lasers; microwave generation; microwave tubes*

orthicons *see television camera tubes*

orthosis *see orthotics*

orthotics

functional neuromuscular control system tuning and clinical ratings of performance 0−62701
hybrid functional elec. stimulation orthoses control 0−56291
self-fitting modular orthosis for gait assistance in paralysed patients 0−56289
sleep apnea ventilator, microprocessor-based 0−48238
ventilator management, eval. of intelligent meas. systems 0−72476

oscillations
see also circuit oscillations; electromagnetic oscillations; harmonic oscillators; harmonics; liquid oscillations; piezoelectric oscillations; plasma oscillations; resonance; stability
2-component nonlin. coupled systems, dynamics, existence of coupling const. interval that stops oscillation 0−38030
300 MW thermal power plant, combustion induced oscillation control methods 0−68702
angular oscillations of rigid body moving in viscous medium, model identification 0−54944
biological systems rhythmic processes, math. model 0−61734
excitable cell electrical bursting and intracellular Ca^{2+} oscillations 0−61698
frequency-domain expts., oscillation amplitude considerations 0−68308
heapsort—adapted for presorted files 0−64555
hydroelectric power station, plant speed control, discrete-time model based on distributed penstock elasticity 0−50657
isolated macroscopic systems, initial formation of order 0−67370
Kerala power system stabiliser scheme (India), setting determ. methods 0−68714
magnetic bearing systems, nonlinear oscillations anal. 0−50130
multidimensional stationary phase approximation: boundary station point 0−51260
multimachine power systems, self-tuning stabiliser design 0−68716
neural nets, oscillations and synchronisations, and labelling hypothesis 0−61027
neural oscillator, conditional, multiple modes and types of conductance 0−61699
nonlinear discrete oscillation with parametric excitation, expt. approx. solutions 0−55708
on-load tap changers, voltage instability and load flow 0−45286
pneumatic cylinders , high-speed driving overcoming oscillation *(Japanese)* 0−62021
power system oscillations, switched-capacitor damping by self-tuning generalised predictive control 0−50752
power system signal oscillation analysis using small signal stability program package 0−43119
power system synchronous generator excitation control for oscillation damping 0−45238
PWR nuclear power plants, nonlinear proportional control approach to axial Xe oscillations 0−68623
relay control system, self-oscillation amplitude minimisation 0−50503
response of oscillator, rapid computation, algorithms with bounded truncation error estimates 0−48737
single-machine infinite-bus system with SVC, LF oscillation suppression 0−62116
step motors with 2-phase-on excitation, overshoot and oscillation damping by back phasing *(Japanese)* 0−68570

oscillators
see also Gunn oscillators; harmonic oscillators (circuits); microwave oscillators; parametric oscillators; radiofrequency oscillators; relaxation oscillators; tunnel diode oscillators; variable-frequency oscillators
CAD, parallel processing application to non-linear electronic network design 0−48467
coil inductance and resonant frequency tester 0−72735
coupled nonlinear oscillators, computer-aided mode anal. 0−43164
crystal oscillator sensitivity to functional environment charactn., expt. procedure 0−50557
digital oscillator with low sensitivities and roundoff noise 0−40395
Duffing oscillator, indicial representation of higher order optimal controls 0−45012
ECL ring oscillators, ECL gate optimisation through statistical cct. simulation 0−51433
frequency control, conference, Denver, CO, USA (May-June 1989) 0−50555
linear theory of two-threshold oscillation 0−53780
microcomputer compensated cryst. oscillator, dual-mode operation for temp. compensation 0−50754
microcomputer-compensated crystal oscillator using a dual-mode resonator 0−50755
quartz cryst. oscillators, mag. field influence 0−50559
quartz crystal oscillators, specification and meas. of freq. vs. temp. characts. 0−50558
quartz oscillators, sensitivity to environment, charactn. methods 0−50556
quasioptimum stochastic phasing of two separated oscillators 0−38558
sine-wave digital oscillator implementation , distortion reduction and appls. 0−66446
GaAlAs/GaAs DH I^{2}L ring oscillators 0−56750
Si pressure sensor with frequency output , using CMOS ring oscillators 0−59752

oscillograms *see oscillographs*

oscillograph recorders *see oscillographs*

oscillographs
see also cathode-ray oscilloscopes
VF-550 waveform analyser, four instruments in one *(Italian)* 0—59908

oscilloscopes
see also cathode-ray oscilloscopes
digital, multigate triggering system and signal processing 0—66453
digital scopes based signal analysers 0—54009
digital storage, Strobes Acquisition PC add-on 0—66404
formal specification of an oscilloscope 0—70538
programmable digitizing oscilloscope for VIRT meas. system 0—53964
sampling freq. convertors and digital oscilloscopes, jitter noise 0—53965
Superscope software package for providing oscilloscope store, spectrum analyser and function, generator *(German)* 0—66166

oscilloscopes, cathode-ray *see cathode-ray oscilloscopes*

OSI *see open systems*

osmosis
seawater reverse osmosis plant, artificial intelligence software for control, computerised instrumentation 0—62032

osmotic pressure *see osmosis*

OTEC *see ocean thermal energy conversion*

OTF *see optical transfer function*

otology *see ear*

ovens
see also domestic appliances; electric heating
ceramic kiln, inversion method to evaluate control law for given core temp. 0—39268
SMT reflow ovens under computer control in Apple computer mfg. 0—68779
thermostatic oven temperature control using fuzzy/adaptive algorithms 0—39096

overcurrent protection
autotransformer substation protection planning using graphical coordination program 0—66076
digital power system overcurrent protection, theoretical/expt. studies *(German)* 0—39121
Hall effect sensor ICS with power-drive outputs , automotive and industrial appls. 0—68900
induction motors, current surge protection, softstart switching, modular design *(German)* 0—50676
multiple overcurrent relays using a single microprocessor 0—72617
power ICs, technology to survive short circuits 0—39045
power system overcurrent relay protection scheme, microprocessor-based 0—53679
power transformer protection using microprocessor-based relaying 0—66051
relay coordination in power systems using integrated software 0—72716

overhead line conductors
compensated overhead lines, EM transients caused by corona computation 0—59579
HVDC corona, effects of relative air density and conductor temp., Grizzly Mountain database examination 0—72628
supply security using back-up phase conductor with automatic control *(Russian)* 0—68664

overhead line mechanical characteristics
see also oscillations; poles and towers
No entries

overhead line sagging *see overhead line mechanical characteristics*

overhead lines
